

2290, 2292

PVC Packaging Tapes

Product Description

Scapa Tapes PVC Packaging Tapes 2290/92 are non-release coated PVC with a moderately high adhesion, pressure sensitive adhesive.

Scapa Tapes 2290 is clear and Scapa Tapes 2292 is buff coloured.

Applications

Scapa Tapes 2290/2 are suitable for most packaging applications, in particular, case sealing.

Technical Performance

Description	Units	Value
Thickness of tape	µm	52
Thickness of base film	µm	32
Tensile strength	N/25mm	120
Elongation at break	%	40
Peel adhesion	N/25mm	5.0
Colour 2290		Clear
2292		Buff

Features and Benefits

Scapa Tapes 2290/92 comply with BS 3887.1991

All Scapa Tapes PVC Tapes are supplied wound onto 76mm i/d card cores and are essentially free from roll defects such as „gapping“ and „windows“.

The quality assurance of Scapa Tapes is full and complete. All materials used in manufacture are obtained from approved sources and against approved specifications.

Likewise all manufacturing processes are by approved production procedures with the appropriate quality control.

Storage Details

Storage should be in dry, well ventilated rooms with a reasonable consistent temperature around 20°C and humidity. Preferably product should be protected from continuous exposure to direct sunlight.
