

PVC Floor Marking Tape

Product Description

274 is a PVC floor-marking tape for indoor use, coated with a natural rubber adhesive used for factory demarcation areas and sports court marking.

Features

- High Adhesion
- Abrasion Resistant

Main Applications

- Identifying factory demarcation areas
- Sports court marking

Technical Data

	Units	Std. Values
Total Thickness	µm	150
MD tensile strength	N/cm	27
MD elongation at break	%	160
Peel Adhesion	N/cm	1.2
Service Temperature (up to)	°C	80

Backing material

PVC

Type of adhesive

Natural Rubber (Solvent Borne)

Available colour

Technical Information and Product Use

All technical information and data above mentioned are provided to the best of our knowledge on the basis of our practical experience. Figures shown refer to average values only, based on tests carried out in conditioned laboratory and are not valid for specification. The company reserves the right to modify or change the products at any time without notice. The accuracy or completeness of such information is not guaranteed. The technical information, suggestions and other statements contained in this document have been compiled for your guidance and usage. The company reminds the user of the products to make sure that the product is used as per the instructions and suggestions provided. It is the user's sole responsibility to determine the suitability of the product in actual application under specific conditions.

Storage and Shelf Life

Suggested storage in dry area away from direct sunlight temperature should range from 59°F / 15°C to 77°F / 25°C with max relative humidity of 50%. Tape and jumbo roll should be used respectively within 12 months and 6 months from date of manufacture. The company does not take responsibility for the defective material if is not stored and used in accordance with the conditions listed above.
