## PCR PET CST

### Product Information

#### Recycled PET Packaging Tape

#### Product Description

tesa® 60412 is a general-purpose packaging tape based on a 70% Post-Consumer Recycled (PCR) PET backing and a water-based acrylic adhesive system. tesa® 60412 has a strong and abrasion resistant backing with excellent bearing and wear properties. It features a very consistent, pressure sensitive acrylic adhesive, making this product the perfect solution for light- and medium-weight packaging application (max. 30 kg). The material combination guarantees a low noise unwind and an excellent printability with all types of ink systems.

tesa® 60412 not only provides an outstanding performance, but it is also an advanced alternative contributing to sustainability:

- The backing material is made of post-consumer recycled PET (70% recycled content).
- This product can be disposed together with the box into the blue bin without endangering the cardboard recycling process (certified according to INGEDE method 12).
- The production process of this product is solvent-free

tesa® 60412 grants a very good performance on recycled cardboards.

#### Application Fields

- Sealing of cardboxes
- Suitable for light- and medium-weight packaging applications (max. 30 kg)
- Excellent adhesion in recycled cardboards
- Suitable for manual and automatic dispensers
- Brand showcase and advertising purposes
